ABOUT ME

Throughout my career, I've honed extensive skills in software development, particularly focusing on web applications and backend systems. Proficient in languages such as PHP, I've developed robust solutions for diverse projects, ensuring optimal functionality and performance. With a strong foundation in database management and system architecture, I've effectively contributed to the creation of user-friendly, scalable applications. My skill set includes expertise in problem-solving, teamwork, and the ability to adapt to new technologies, ensuring the successful delivery of high-quality and innovative solutions.

WORK EXPERIENCE

Qaslat programing and Engineering house

Internship & Graduate | Developer
Ede , Nigeria
2022-03-01 | Currently working here

As a software developer, my day-to-day activities involve designing, coding, and debugging applications. I collaborate with team members, participate in meetings to discuss project progress and tackle coding challenges. I stay updated on industry trends, incorporate best practices, and engage in continuous learning. Achievements include successfully implementing new features, resolving complex issues, and contributing to the overall improvement of software quality. I prioritize efficient and maintainable code, adhere to project timelines, and celebrate successful project milestones with the team

Walex Electronics

Senior level | Software Developer and Sales Person
Ede , Nigeria
2022-01-01 | Currently working here

In my role as a software developer and salesperson at the electronics store, my day-to-day activities involve developing and maintaining software solutions to enhance the store's operations. This includes creating efficient inventory management systems, optimizing the

point-of-sale software, and implementing customer relationship management tools. As a salesperson, I assist customers in finding the right electronics, provide technical support, and contribute to achieving sales targets. My achievements include implementing user-friendly interfaces, streamlining sales processes, and enhancing customer satisfaction through a seamless integration of technology and personalized service.

Jolayemi Empire

Executive level | Director
Akure , Nigeria
2018-01-01 | Currently working here

In my role at the fashion company, I engage in daily activities related to designing and overseeing the production of fashion footwear, bags, and men's accessories. This involves collaborating with design teams, managing production processes, and ensuring product quality. Achievements include successfully launching new product lines, optimizing manufacturing workflows, and contributing to the company's brand recognition through innovative designs. I stay attuned to market trends, foster creative collaboration, and strive for excellence in delivering stylish and high-quality fashion products to our customers.

EDUCATION

Federal University of Technology Akure

Degree | B.Tech

I am currently studying Agricultural Engineering.

Agricultural engineering is an interdisciplinary field encompassing knowledge from engineering, biology, and agricultural sciences. Students in this field delve into the science behind modern farming techniques, developing innovative solutions to enhance agricultural practices. Areas of focus typically include soil and water conservation, crop production, livestock farming, farm equipment, and environmental management. Studying agricultural engineering involves learning about sustainable practices, precision farming, irrigation systems, and the utilization of technology to optimize crop yield, improve food production, and ensure environmental sustainability. This course equips students with the skills to design, implement, and manage efficient systems that contribute to the advancement and sustainability of agricultural practices.

University of Michigan(coursera)

Others | Web Developer

I have successfully completed a comprehensive online course on building applications in PHP through Coursera. This certification signifies my proficiency in PHP web development, encompassing the design and implementation of dynamic and interactive web applications. I have gained valuable skills in leveraging PHP for server-side scripting, creating robust and scalable solutions. This qualification positions me as a capable developer with the ability to contribute effectively to web development projects, showcasing my commitment to continuous learning and staying abreast of industry-relevant technologies.

Udemy(online course)

Vocational | Developer

Completing the 'JavaScript for Beginners: Learn by Doing Practical Exercises' course on Udemy. This comprehensive course has equipped me with essential skills in JavaScript programming, offering hands-on experience through practical exercises. I've gained proficiency in writing efficient and interactive JavaScript code, enabling me to build dynamic web applications. This accomplishment reflects my commitment to mastering JavaScript and reinforces my foundation as a capable front-end developer. I am excited to apply these skills in real-world projects, contributing to innovative and user-friendly web solutions.

JOB SKILLS

HTML   PHP   C Programming Language

SQL   Javasript   CSS

LANGUAGE SKILLS

Yoruba   English

CERTIFICATES & AWARDS

Building Web Application in PHP: Certificate | 2023
Create And Design Digital Product Using Canva: Certificate | 2022
Javascript for Beginners Learn by Doing Practical Exercises: Certificate | 2022
